

Memory Wire Earring Kit

Contents:

- 2 x memory wire circles silver
- 2 x memory wire circles gold
- 2 x earring hooks each gold and silver
- 4 x heavy gage jump rings each gold and silver
- 4 x fine jump rings each gold and silver
- 40cm each fine chain gold and silver
- 30 x 4mm bicone beads greige
- 4 x 5mm bicone beads light silk
- 2 x 5mm bicone bead greige
- 4 x 6mm globe beads iridescent green
- 1 x 8mm facet bead khaki
- 30 x 4mm bicone beads silver night
- 8 x 5mm bicone beads crystal ab
- 5 x 6mm facet bead silver night
- 4 x 6mm briolette beads, black diamond
- 2 x 8mm silver facet half coat beads

* Please note there are a few spare beads included

First prepare the hoops and chains:

1. Make a loop at one end of the hoop by looping the end back on itself with round nose pliers. (This will also prevent the beads from sliding off when you thread them on).

2. Cut the chain into lengths as follows:

2 pieces x 5.5cm

4 pieces x 3.5cm

2 pieces x 2cm

*Please have a look at our YouTube channel for more detailed instructions on memory wire use and pinning a looping beads.

To make the gold pair as this image, thread beads onto the hoop as follows:

15 x 4mm bicone beads
2 x 5mm bicone bead
2 cm chain
1 x pearl
3.5 cm chain
1 x globe bead
3.5cm chain and 5.5 cm chain
centre 8mm khaki bead
5.5cm chain and 3.5 cm chain
Follow the same pattern on the other side to make the hoop symmetrical.

Once all beads are threaded, make a loop on the 2nd side at the top (also by looping the end back on itself).

Now join the two ends and earring hook with a 5mm heavy gauge jump ring.
Open the jump ring, thread on the earring hook, and at the same time connect the two ends of the hoop with the same ring before closing it.

To make the silver pair as this image, thread beads as follows:

15 x 4mm bicone beads
1 x 6mm crystal AB
1 x black diamond briolette
1 x 6mm crystal AB
1 x 6mm faceted bead
1 x 8mm faceted bead (this is the middle so repeat on the other side)

After closing the heavy gauge jump ring and attaching the earring hook at the top, make a tassel on a separate small jump ring.

To do this, open the small jump ring and thread on the chains in this order – 2cm, 3.5cm, 5.5cm, 3.5cm, 2cm

Then attach this jump ring with chain tassel to the middle jump ring under the earring hook.

(You may prefer not to include the chains at all if you prefer a more simple hoop earring).

Notes:

Difficulty level – easy

Time to complete – 1.5 to 2 hours

For more tips on how to assemble your kit, or if you would like to ask a question, please have a look at our Facebook page: Nadia Minkoff London Workshops.

Make Jewellery with Nadia Minkoff London

*Please note, there may be minor variations in the contents compared to the images. Our kits are made in the UK so if we run out of any beads or parts we will substitute them with something very similar and within the same colour and theme. There will always be enough to complete your creation.
When making your jewellery please be aware that there will be small parts that need to be carefully disposed of. Please be careful of this if you have small children nearby.
