

Dachshund Charm Necklace Kit

Contents:

- 1 x 45cm chain & 5cm extender chain
- 3 x 6cm assorted chains for tassel
- 1 x dachshund silver plated charm
- Assorted size metal beads
- 1 x semi precious jade bead
- Metal parts and findings

Using the guide below, first pin the beads you'd like to use, some may be connected in a row using eye pins, as shown in the diagram on the next page.

To prepare beads:

1. Insert the ball pin into the bead. Using flat nose pliers bend the pin to a 90 degree angle against the bead at the open end.
2. Trim the end of the pin to about 0.8 to 1cm length.
3. Use round nose pliers to loop the end of the pin, and close the loop.

To assemble the necklace:

1. Prepare your main necklace chain by connecting the clasp to one end using a jump ring. Then at the other end connect the ready made extender chain using another jump ring. Remember to add the logo flower on the very end.

2. Prepare the tassel by attaching the three short chain sections to one jump ring.

3. Create a skeleton of four jump rings connected in a row. This is going to be the centre of your cluster, so you can now connect the beads, dog charm and tassel to it as you wish, or as the following general guide.

Mixed chain tassel attached to the bottom jump ring. You can cut the chains to make them uneven lengths.

4. Connect the semi-precious and metal bead to the top jump ring.

5. Create a three bead link using eye pins, rather than ball pins and connect this to the top jump ring.

(Please have a look at our online video for more detailed instructions on if you have not seen how to open and close loops, and make a linked section.)

6. Connect the three chain tassel and dog charm to the bottom jump ring.

7. Finally, open the top jump ring of this cluster and attach to the necklace chain.

Notes:

Difficulty level – medium

Time to complete – 1.5 - 2 hours

For more tips on how to assemble your kit, or if you would like to ask a question, please have a look at our Facebook page: [Nadia Minkoff London Workshops](#).

*Please note, there may be minor variations in the contents compared to the images. Our kits are made in the UK so if we run out of any beads or parts we will substitute them with something very similar and within the same colour and theme. There will always be enough to complete your creation.
