

Nautical Keyring/Bag Charm Kit

Contents:

- 1 x trigger hook
- 1 x chain
- 1 x split ring
- Ball pins and jump rings
- Selection of beads and end caps

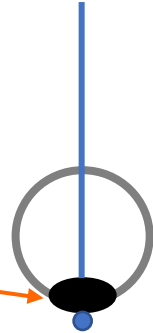

To prepare beads:

1. Insert the ball pin into the bead. Using flat nose pliers bend the pin to a 90 degree angle against the bead at the open end.
2. Trim the end of the pin to about 0.8 to 1cm length.
3. Use round nose pliers to loop the end of the pin, and close the loop.

To assemble the charm:

1. Pin and loop each of the beads. Some of the very large beads will need end caps so remember to thread these onto the pin with the bead.
2. Connect the beads directly onto the central chain.
3. Consider how to lay out your beads – how would you like the colour to be spread?
4. It is recommended to put the largest and heaviest part on the bottom to anchor the weight.
5. Finally, connect the split ring and trigger hook to the top of the cluster. (This step can also be done at the beginning if you find it helps you to handle the chain better).

Notes:

Difficulty level – moderate

Time to complete – up to 1 hour

For more tips on how to assemble your kit, or if you have any questions, please have a look at our Facebook page: [Nadia Minkoff London Workshops](#).

*Please note, there may be minor variations in the contents compared to the images. Our kits are made in the UK so if we run out of any beads or parts we will substitute them with something very similar and within the same colour and theme. There will always be enough to complete your creation.
