

## Mix & Match Wire Wrap Earring Kit

### Contents:

- 1 pair gold hoop earrings
- 1 pair silver hoop earrings
- 1 spool 15m gold wire 26 gauge
- 1 spool 15m silver wire 26 gauge
- 1 crystal heart pendant bead
- 2 briolette beads
- 4 xilion crystal pendant bead
- 4 bicone beads
- 1 small pearl bead
- 2 NM flower logo tags

\* All beads are Swarovski excluding the pearl

### To make a single wire wrapped briolette or pendant bead:

1. Cut 10 cm of wire.  
Thread through the top of the bead.

2. Pinch the wire together with your fingers over the tip of the bead, leaving a small triangle/gap.

3. Grab with your *flat nose* pliers just where the wires are pinched together.

4. Make a 90 degree bend with one side of the wire, then wrap it tightly around the first wire twice and **cut the excess wire** as close as you can to the coil.

5. Now hold the coil with your *flat nose* plier and make a 90 degree bend.

6. Using your *round nose* pliers take hold of the wire, just above the bend.

Make sure your pliers are not holding the wire right at their tip as you don't want your loop to be too little.

Now make a half loop (like we loop with pins) and with your fingers carry the wire around and under to make a full loop.

7. Remove your round nose pliers, grab the loop gently with the *flat nose* pliers and coil the wire around over the previous coil, and then a couple more times (I did mine about 5-6 times).

Trim excess wire carefully as close as you can to the coil, gently squeeze any sharp protruding wire with your flat nose pliers

Single wire wrapped drop

### To make a double bead wire wrapped briolette or pendant:

1. Cut 15 cm of wire.

Thread through the top of the loop leaving one side about twice as long as the other.

Now repeat the same as steps 2 & 3 above.

2. You will now be left with one very long wire on top of the coil.

Thread your bicone bead on it and then repeat steps 5 & 6 above.

bicone bead

Double wire wrapped drop

**3.** Now grab your loop with the *flat nose* pliers, twist the wire twice just under your loop, then take it across the front of your bead at an angle and then coil it again just below the bead, going over your first coils about 4-5 times.

Cut the excess off as closely as you can, and with your *flat nose* pliers gently squeeze in any sharp protruding wire.

Once you have wire wrapped all the beads, you have the choice of hanging as many or as few as you would like onto the earring hoops.

The flower tags can also be added directly onto the hoop.

Notes:

Difficulty level – medium

Time to complete – 1.5 to 2 hours

For more tips on how to assemble your kit, or if you would like to ask a question, please have a look at our Facebook page: [Nadia Minkoff London Workshops](#).

\*Please note, there may be minor variations in the contents compared to the images. Our kits are made in the UK so if we run out of any beads or parts we will substitute them with something very similar and within the same colour and theme. There will always be enough to complete your creation. When making your jewellery please be aware that there will be small parts that need to be carefully disposed of. Please be careful of this if you have small children nearby.
